Cristobal A. Lizarraga

(480)- 519-3666 **Lizarraga.cristobal689@gmail.com**

Education & Certification

M.S. Computer Science, Arizona State University — May 2024 · GPA: 3.89
B.S. Computer Science, Arizona State University — May 2023 · GPA: 3.96
ServiceNow Certified System Administrator (CSA), ServiceNow — Professional credential

Skills

Languages: Python, C#, JavaScript, TypeScript, SQL, Java, C/C++
Backend & Web: Node.js, Next.js, React, server-side API routes, HTML/CSS
Data & AI: Spark, Hadoop, TensorFlow, Pandas, NumPy, D3.js
Platforms & Tools: ServiceNow, AWS, Git/GitHub, Linux, PostgreSQL, MySQL
Spoken Languages: English (native), Spanish (fluent)

Work Experience

ServiceNow Intern - Keenstack **May 2026 - July 2026**

- Gained hands-on experience with ServiceNow platform configuration and administration at a ServiceNow consulting firm specializing in AI-driven customer service, employee workflow automation, and IT operations optimization.
- Developed skills in leveraging AI tools within ServiceNow to enhance service delivery and streamline enterprise workflows.
- Earned ServiceNow Certified System Administrator (CSA) certification.

Drafter-Phoenix Modulars **January 2025 - Present**

- Design and develop detailed blueprints for modular buildings using AutoCAD Architecture, customized to meet client specifications and project goals.
- Collaborate with cross-functional teams at the company, including sales, structural engineers, and production staff, to ensure accurate, buildable designs.
- Verify all drawings comply with state and local building codes across multiple jurisdictions, revising plans as needed to meet regulatory standards.
- Created custom AutoLISP scripts to automate repetitive drafting tasks and improve workflow efficiency.

Research Assistant (Fellowship) - Arizona State University **August 2022-April 2023**

- Built data pipelines and managed large datasets for SEIR models and COVID-19 research, including data extraction, transformation, and integration.
- Designed visualizations to analyze prevention strategies and support educational materials.

Projects

Vast Challenge | JavaScript, D3.js, Apache Spark, Python, SQL

- Modeled and visualized city-scale routine data to uncover patterns using a Python/SQL/Spark data workflow and interactive D3.js views.

CMDB Identity Guard Offline Demo | TypeScript · Next.js · React · ServiceNow

- Built a CMDB review demo using synthetic records, explainable evidence, and human-reviewed decisions
- Added a server-side ServiceNow integration route and connected the interface to a typed API adapter with a mock fallback; updated rendered-HTML tests supporting the workflow.
